➤ Increase geographical presence

We are currently located in Faridabad, Haryana. Going forward we plan to establish our presence in the other regions. Our emphasis is on expanding the scale of our operations as well as growing our supply chain network, which we believe will provide attractive opportunities to grow our client base and revenues.

➤ Diversify our Product Portfolio

Going forward, we intend to diversify our product portfolio using advanced electronic integration technology and add more products to our portfolio based on our own

assessment of market, demand, and supply position. Our Company's strategy is focused towards introducing new product designs to cater to the requirements of our customers as well as garnering the attention of more customers. This helps in strengthening the relationship with the existing customer network through a wide range of products while also onboarding new customers from untapped geographies. Identifying and developing new products and designs is a continuous exercise that our management team engages into as we believe that there is an immense demand in the global markets for unique designs, good quality and competitively priced products.

8. COMPETITION:

The automotive component manufacturing industry is very competitive with multiple organized and unorganized players operating in the said Industry. We face fair competition from both organized and unorganized players in the market. Further, there are many large and well-established corporates operating in the same segment as us, who might have better resources than those available to us as well as other economic advantages as compared to our business, owing to which we might face competition from such established players.

We believe that our experience in this business and quality assurance will be key to overcome competition posed by such organized and unorganized players. We believe that we have the potential to compete effectively in the market with our quality of products. We believe that the principal factors affecting competition in our business include client relationships, reputation, and the relative quality and price of the products. Independent Auditor’s Report on the Internal Financial Controls with reference to the Standalone Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the standalone financial statements of Mandeep Auto Industries Limited (“the Company”) as at and for the year 31 March 2024, we have audited the internal financial controls with reference to financial statements of the Company on that date.

Responsibilities of Management for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by the Institute of Chartered Accountants of India (“ICAI”) and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the Internal financial controls over financial reporting and their operating effectiveness. Our audit of Internal financial controls over financial reporting included obtaining an understanding of Internal financial controls over financial reporting, assessing the risk that a material weakness exists and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s Internal financial controls over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Annexure B referred to in Paragraph 2 clause (f) under "Report on Other Legal and Regulatory Requirements" section of the Independent Auditor's Report of even date to the members of Mandeep Auto Industries Limited on the standalone financial statements for the period 19 April 2023 to 31 March 2024

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of Internal Financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected, Also projections of any evaluation of the internal financial controls over financial reporting to future period are subject to the risk that Internal financial controls over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls systems over financial reporting and such internal financial controls systems over financial reporting were operating effectively as at 31 March 2024, based on internal financial controls systems over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of internal financial controls systems over financial reporting issued by the Institute of Chartered Accountants of India.

Notes to the Standalone financial statements for period 19 April 2023 to 31 March 2024

1. Background of the Company:

Mandeep Auto Industries Limited having its registered office at P. No. 26 , Nangla Faridabad, Haryana, Faridabad NIT, Faridabad, Faridabad, Haryana, India, 121001, was incorporated on 19th April 2023, under Companies Act, 2013.

The corporate identification number of the company is U45402HR2023PLC110878. The Company is engaged in Manufacturing, automotive & industrial components, promising quality and excellence.

2. Statement of Material Accounting Policies

2.1 Basis of Preparation of Financial Statements:

The financial statements of the Company have been prepared in accordance with the Generally Accepted Accounting Principles in India (Indian GAAP) to comply with the Accounting Standards specified under Section 133 of the Companies Act, 2013 ("the 2013 Act") and the relevant provisions of the 1956 Act / 2013 Act, as applicable. The financial statements of the Company are prepared under the historical cost convention using the accrual method of accounting. The accounting policies adopted in the preparation of the financial statements are consistent with those of the previous year. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in Schedule III to the 2013 Act.

2.2 Use of Estimates:

The presentation of the financial statements, in conformity with Indian GAAP, requires the Management to make estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and disclosure of contingent liabilities. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable, future results could differ, the differences between the actual results and the estimates are recognised in the period in which the results are known / materialise.

2.3 Property, plant and equipment (PPE)

Tangible assets are carried at cost less accumulated depreciation and accumulated impairment losses, if any. Cost comprises of the purchase price including import duties and non-refundable taxes, and directly attributable expenses incurred to bring the asset to the location and condition necessary for it to be capable of being operated in the manner intended by management. Capital expenditure incurred on rented properties is classified as 'Leasehold improvements' under property, plant and equipment.

Subsequent costs related to an item of Property, Plant and Equipment are recognised in the carrying amount of the item if the recognition criteria are met. Items of Property, Plant and Equipment that have been retired from active use and are held for disposal are stated at the lower of their net carrying amount and net realisable value and are shown separately in the financial statements under the head 'Other current assets'. Any write-down in this regard is recognised immediately in the Statement of Profit and Loss. An item of Property, Plant and Equipment is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising on derecognition is recognised in the Statement of Profit and Loss.

Depreciation on tangible asset is recognised on a straight-line basis based on a useful life of the assets prescribed in Schedule II to the Act. If the management's estimates of the useful life of an asset at the time of acquisition of assets or of the remaining useful life on a subsequent review is shorter than that envisaged in the aforesaid schedule, depreciation is provided at a higher rate owing to their risk of higher obsolescence / wear & tear. The useful life of the assets has been reassessed based on the number of years for which the assets have already been put to use and the estimated minimum balance period for which the assets can be used in the Company. The estimated life of property, plant and equipment has been determined as follows:

Nature of Assets	Useful Life (In years)
Building	30
Building (Temporary Structure)	3
Computer	3
Electric Installations	10
Office Equipment	5
Furniture & Fixture	10
Plant And Machinery	15

2.4 Intangible assets

Intangible assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortized on a straight-line basis over their estimated useful lives. A rebuttable presumption that the useful life of an intangible asset will not exceed fifteen years from the date when the asset is available for use is considered by the management. The amortisation period and the amortisation method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortisation period is changed accordingly.

Gains or losses arising from the retirement or disposal of an intangible asset are determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognized as income or expense in the Statement of Profit and Loss. The estimated useful lives of intangible assets are as follows:

Nature of Assets	Useful Life (In years)
Software	3

2.5 Inventories

The figure of closing stock is taken on the basis of physical count of stock by the management at the end of the year.

Inventories are valued at lower of historical cost and net realizable value.

Cost of inventories have been computed to include all costs of purchases, cost of conversion, all non-refundable duties & taxes and other costs incurred in bringing the inventories to their present location and condition.

Stock-in-trade are based on weighted average cost basis.

Obsolete, slow moving and defective inventories are valued at net realizable value i.e. scrap rate.

Goods in transit are stated at actual cost incurred up to the date of Balance Sheet.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated cost of completion and estimated cost necessary to make the sale. Necessary adjustment for shortage / excess stock is given based on the available evidence and past experience of the Company.

2.6 Revenue Recognition

- Revenue from sale of product

Revenue is recognized in respect of sales on dispatch of product to the customers. Quality rebates, claims and other discounts, if any, are disclosed separately.

- Other revenue

Interest on bank deposits is recognized on the time proportion basis taking into account the amounts invested and the rate of interest as applicable.

2.7 Employee Benefits

Gratuity is a post-employment benefit and is in the nature of a defined benefit plan. The liability recognized in the balance sheet in respect of gratuity is the present value of the defined benefit obligation at the balance sheet date. The defined benefit obligation is calculated at the balance sheet date by an independent actuary using the projected unit credit method. Actuarial gains and losses arising from past experience and changes in actuarial assumptions are charged to the Statement of Profit and Loss in the year in which such gains or losses are determined.

Employee benefits in the form of Provident Fund and Employee State Insurance Scheme are defined contribution plans and the contributions are charged to the Statement of Profit and Loss of the year when the contributions to the respective funds are due. There are no other obligations other than the contribution payable to the respective funds

Short-term employee benefits: All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits and are recognised in the Statement of Profit and Loss in the period in which the employee renders the related service.

Liability in respect of compensated absences becoming due or expected to be availed within one year from the date is recognised on the basis undiscounted value of estimated amount required to be paid or estimated value of benefit expected to be availed by the employees. Liability in respect of compensated absences becoming due or expected to be availed more than one year after the balance sheet date is estimated on the basis of an actuarial valuation performed by an independent actuary using the projected unit credit method.

2.8 **Taxation**

The tax expense comprises of current tax and deferred tax. Current tax is the amount of income tax determined to be payable in respect of taxable income for a period as per the provisions of Income Tax Act, 1961. Deferred tax is the effect of timing differences between taxable income and accounting income that originate in one period and are capable of reversal in one or more subsequent periods. Deferred tax is measured based on the tax rates and the tax laws enacted or substantively enacted at the balance sheet date. Deferred tax assets are reviewed at each balance sheet date and recognised/derecognised only to the extent that there is reasonable/virtual certainty, depending on the nature of the timing differences, that sufficient future taxable income will be available against which such deferred tax assets can be realized.

Minimum Alternate Tax ('MAT') credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. In the year in which MAT credit becomes eligible to be recognised as an asset in accordance with the recommendations contained in Guidance Note on Accounting for Credit Available in respect of Minimum Alternative Tax under the Income-tax Act, 1961, the said asset is created by way of a credit to the Statement of Profit and Loss and shown as MAT credit entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT credit entitlement to the extent it is not reasonably certain that the Company will pay normal income tax during the specified period.

2.9 **Earnings per share**

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

2.10 **Cash, Cash Equivalents and Bank Balances**

Cash, Cash Equivalents and Bank Balances for the purpose of Cash Flow Statement comprise Cash at Bank, Cash in Hand, Cheques / Drafts in Hand, Deposits with Bank within 12 months maturity and other permissible instruments as per Accounting Standard AS-3.

2.11 **Borrowing Cost:**

Borrowing Cost attributable to the acquisition or construction of a qualifying asset is capitalized as part of the cost of the asset. Other borrowing costs are recognized as an expense in the period in which they are incurred.
